               【非常用取水設備】（基本設計方針）  
第 2 章 個別項目  
1. 非常用取水設備の基本設計方針  
熱の逃がし場として、ㄨ(3)(v)-㉔設計基準事故に対処するために必要となる残留熱除去系、非常用ディーゼル発電機及び高圧炉心スプレイ系ディーゼル発電機の冷却用の海水を、取水路、取水ピット及び海水ポンプ室から構成される取水構造物により、確保できる設計とする。また、ㄨ(3)(v)-㉔基準津波による引き波時の取水ピット水位の低下に対して、残留熱除去系海水ポンプ、非常用ディーゼル発電機用海水ポンプ及び高圧炉心スプレイ系ディーゼル発電機用海水ポンプの取水可能水位を保持するため、取水口前面に貯留堰を設置し、ポンプの継続運転が可能な設計とする。  
ㄨ(3)(v)-㉔貯留堰、取水路及び取水ピットを重大事故等対処設備として使用し、必要な海水を確保できる設計とする。  
S A用海水ピット、海水引込み管、S A用海水ピット取水塔、緊急用海水取水管及び緊急用海水ポンプピットを重大事故等対処設備として使用し、必要な海水を確保できる設計とする。

工事の計画のㄨ(3)(v)-㉔は、設置変更許可申請書（本文）のㄨ(3)(v)-㉔を具体的に記載しており整合している。

| 容量 | 約 1.3 m <sup>3</sup> ／h／個 |

設置変更許可申請書（添付書類八）該当事項

(5) 緊急時対策所用発電機給油ポンプ

|        |                           |
|--------|---------------------------|
| 型式     | 歯車式                       |
| 個数     | 2                         |
| 容量     | 約 1.3 m <sup>3</sup> ／h／個 |
| 吐出圧力   | 約 0.3 MPa [gage]          |
| 最高使用圧力 | 0.5 MPa [gage]            |
| 最高使用温度 | 45 ℃                      |

二酸化炭素濃度計

㍻(3)(vi)-㉔個.....数.....1（予備1）

㍻(3)(vi)-㉔酸素濃度計及び二酸化炭素濃度計は、設計基準事故時及び重大事故等時ともに使用する。

第 10.9－3 表 緊急時対策所（重大事故等時）（可搬型）設備仕様

<中略>

(2) 酸素濃度計

兼用する設備は以下のとおり。

・緊急時対策所（通常運転時）

・緊急時対策所（重大事故等）

個.....数.....1（予備1）

測定範囲 0.0 vol%～40.0 vol%

(3) 二酸化炭素濃度計

兼用する設備は以下のとおり。

・緊急時対策所（通常運転時）

・緊急時対策所（重大事故等）

個.....数.....1（予備1）

測定範囲 0.0 vol%～5.0 vol%

<中略>

| 設置変更許可申請書（本文）                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               | 設置変更許可申請書（添付書類八）該当事項                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      | 工事の計画 該当事項                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        | 整合性                                                                                                                                                                                                                                                                                                                                                                   | 備考 |
